

MAMDOUH GHANEEMY

Strategic Product Designer — Fintech & SaaS

Cairo, Egypt (GMT+2) · Works globally, async-friendly | hello@mamdouh-ghaneemy.com | linkedin.com/in/mamdouh-ghaneemy | mamdouhghaneemy.com

SUMMARY

Strategic Product Designer with 12+ years of experience designing, building, and instrumenting websites and products for founders. Ships end-to-end: strategy, design, front-end build, and analytics. Method: The 3-Signal Rule — no design decision ships without three independent signals (behavior, intent, funnel). Took Pre-Series A fintechs from hobby-project websites to investor-ready platforms in 4 weeks, and complex trading apps from Figma to beta in 10 weeks. \$500k+ in funded projects shipped with zero missed deadlines.

CORE SKILLS

- UX Strategy, Design Systems, Product Design (Mobile + Web), Interaction Design, Accessibility (WCAG 2.2 AA)
- Nuxt, Vue, Tailwind CSS, Webflow, WordPress, Supabase, HTML Prototypes
- Google Analytics 4, Google Tag Manager, Microsoft Clarity, Google Search Console, Looker Studio
- Funnel Optimization, AEO/SEO, Async Co-Design, Conversion Rate Optimization (CRO)

SERVICES

- **The Sprint (2–6 weeks):** End-to-end website or product launch. Strategy, design, front-end build, and tracked release.
- **The System (4–8 weeks):** Complete design system plus scalable front-end build, with documentation and a Loom walkthrough.
- **The Audit (2 weeks):** Analytics, CRO, and UX review with a prioritized fix list.
- **The Partner (monthly retainer):** Fractional design lead embedded in the roadmap from kickoff through post-launch review.

EXPERIENCE

Strategic Product Designer — Independent Practice | 2022 – Present

Cairo, Egypt · Working globally (async)

- Lead designer and front-end builder for Pre-Series A to Series B SaaS and FinTech products.
- Shipped \$500k+ in funded projects — from first wireframe to tracked, measurable launch.
- Own the full loop: strategy, design, build (Nuxt/Webflow), analytics (GA4/GTM/Clarity), post-launch iteration.

Product Designer — Design studios and in-house product teams | 2012 – 2022

- Designed SaaS platforms, e-commerce, brand systems, and marketing sites across fintech, retail, and hospitality.
- Led UI/UX for multiple product launches.
- Transitioned from visual design into product thinking — from "how it looks" to "what it measures."

SELECTED PROJECTS

- **Qompyl Website — Investor-Ready in 4 Weeks:** Took a Pre-Series A fintech from hobby-project website to institutional-grade platform without slowing the fundraising window. 5 pages, full design system, Webflow build, and complete tracking stack (GTM + GA4 + Clarity) shipped in 20 working days. Lead investor called out the polish during due diligence.
- **Qompyl App — Trader Beta in 10 Weeks:** Designed the mobile trading experience — 30+ screens, 60+ documented states. Every Figma comment closed with a testable screen. Zero dev rebuilds at handoff.
- **Self-Audit — Portfolio V2:** Applied audit method to own portfolio. Bounce rate cut by 22 points, case-study read depth up 31 points, inbound conversations doubled in first 30 days.

TESTIMONIALS

"Mamdouh turned our complex fintech product into an investor-ready website in just 4 weeks. Our lead investor specifically called out the site's polish during due diligence — that's the ROI." — Katie Milburn, MBA, VP Growth & Business Strategy, Qompyl

"Your work has been excellent across the board. The state-by-state thinking on the order box — showing the token shortfall before it hits — saved us a support headache at beta." — Tyler Charton, CEO & Founder, Qompyl
